

# OUR BLOCKCHAIN SERVICES

**Our blockchain solutions are tailored to assist startups and enterprises with business automation goals. We provide reliable and secure decentralized blockchain solutions that showcase feature integration, system modifications, and implementations. The following are some of the blockchain services we provide:**

## WEB 3.0 & CUSTOM DAPP DEVELOPMENT

Web3 technology, in combination with the blockchain network and smart contracts, brings a competitive advantage to your business. Also, thanks to the web3 innovation, we build scalable and secure enterprise-grade dApps run on top of distributed computing systems that can rule out intermediaries and keep you ahead of your competition.

## SMART CONTRACTS

Custom smart contract development with a wide range of blockchain standards, including ERC, TRON, EOS, Hyperledger, NEM, Tezos, Cardano, Bitcoin, and more.

## CRYPTO ASSET EXCHANGE

Develop tamper-proof crypto asset exchanges with the assistance of our team. We ensure that your exchange is enabled with real-time cryptocurrencies securely and efficiently. Your exchange can support all features such as Spot & P2P Trading, Margin, Futures, E-Money market, Bank payments (VISA, Master, PayPal, & ...), Token Listing, Fiat & Crypto Wallet, and provide all technical tools for professional traders.

## CRYPTO TOKEN DEVELOPMENT

We offer blockchain services to develop tokens or token issuance platforms via ICO, IEO, STO, and IDO across blockchain platforms or custom blockchain networks. We are with you from zero to top, from creating to listing your token on major resource websites, including CoinMarketCap.

## WALLETS & APPS

We have successfully delivered user-friendly crypto wallets and assets vault APPs to blockchain startups worldwide. Built-in with advanced security features, including biometric authentications.

## METaverse DEVELOPMENT

If you have a metaverse solution idea in mind and need help building it, please don't hesitate to talk to our experts to see how we can help your firm figure out your metaverse priorities. We develop Metaverse games and virtual worlds with professional and close-to-reality 3D design.

## NFT DEVELOPMENT

Want to build NFTs, or are you thinking of launching an NFT marketplace? We've got you covered. We have proven expertise in NFT development in ERC, EOS, Cardano, and more. We also create and design NFT collections for you.

## NFT MARKETPLACE

Yes, it's necessary to find a marketplace to sell your NFTs. We are here to help you with that! Selling your collection on major NFT Marketplaces such as OpenSea is easy, but owning your own NFT Marketplace? It would be awesome! We develop a leading platform for you to sell your art, game assets, and Metaverse NFTs directly to your customers.

## NFT GAME DEVELOPMENT

Don't miss the trend! NFT games have super fans these days, so becoming an NFT game provider is the key. Let's create a 2D or 3D Play-to-Earn game! We deliver a decentralized P2E NFT game with the potential of becoming a top-rated project.

## DEFI DEVELOPMENT

Need support to develop your DeFi or Decentralized Finance projects? Let's work together! We have delivered several DeFi products for our customers from around the world. You can have your own online Crypto Exchange, Lending platform, Swap and stacking website with the highest security and quality.

## INDUSTRY SPECIFIC SOLUTIONS

Need a custom blockchain app or a blockchain protocol to meet the specific needs of your industry? We can help you with that. Reach out to us for a free technical consultation from our experts.

## BLOCKCHAIN CONTENT PRODUCTION

Whether a coin, token, or Metaverse platform, a blockchain project needs an excellent whitepaper/Lightpaper and absolutely a high-level roadmap that fully defines your product's overarching strategic objective and captures the major steps to achieve that. A professional white paper prepared by our blockchain tech experts builds up your project's fundamental structure in the best way.

## BLOCKCHAIN CONTENT MARKETING

All your platforms require engaging, unique, plagiarism-free content with a merchandising and marketing perspective to boost your sale while avoiding too much marketizing. Spreading eye-catching news and influential articles on prominent blockchain websites like Coin-Telegraph will bring you excellent news coverage. Catchy titles, strong ideas, standard format, and strategic keywords based on recent research and essays level up your brand awareness in media.

## LISTING SERVICES

A solid crypto project must be traceable on leading resource websites and tradable in top-rated exchanges. However, it's not an easy job in the recent market. People always refer to reliable crypto-analyzing websites and popular exchanges to see if they can trust your project and invest in it confidently. We are with you on this journey to list your project on the world's most well-known resource websites, Crypto Exchanges, Crypto wallets, and fundamental analysis websites.
